Please note that it will be possible for members to attend both meetings, virtually and in person. Members who attend the meeting virtually will be required to register in advance; we therefore ask members to join the meeting under their FULL NAME.

IMPORTANT!

Members will be required to vote on an item on the agenda. Since it is impossible to verify with certainty the identities of multiple members using a single device, members who attend virtually will need to log in individually to have the opportunity to vote. Ex: a family of 4 members, who attend the assembly together virtually on the same computer, will only be entitled to ONE VOTE. To be entitled to the 4 votes, the 4 members will have to log in on their own device, such as a cellphone, in their own name.

A member who attends both meetings may vote on only one occasion. We therefore ask members to abstain from voting twice, otherwise their votes will be cancelled.

Wela'lin,

The Micmac Nation of Gespeg
