

JOB OPPORTUNITIES

AT-SEA FISHERIES OBSERVER

BIOREX Inc., a consultant firm specialized in fisheries, aquaculture and marine sciences since 1978, seek recruits for the At-sea Fisheries Observer Program of the Department of Fisheries and Oceans Canada (DFO).

DUTIES

Observe, record and report on commercial, experimental and exploratory fisheries. Collect **at sea, on board Canadian fishing vessels**, data on fishing effort, catch and processing as well as data on the biological characteristics of the catch. Promote adherence of fishers to Canadian fishing and environmental acts and regulations.

MANDATORY QUALIFICATIONS

Don't have a seasickness, successful completion of secondary education or combination of suitable experience, availability on short notice and for long periods outside area of residence, good health, legally entitled to work in Canada, hold a driver's licence and have full-time access to a car.

DESIRABLE QUALIFICATIONS

Experience/training in navigation and/or commercial fishing, biology, ecology and/or enforcement. Knowledge of French.

WORKING CONDITIONS

Annual and seasonal positions available in Gaspésie (QC), North Shore (Qc), Magdalen Islands (QC), Acadian Peninsula (NB), Prince Edward Island and Cape Breton (NS).

Salary and benefits: according to the collective agreement.

Availability in March 2023.

Travel and living expenses: paid by Biorex when assigned.

BIOREX subscribes to equal employment opportunity principles.

Applications with complete résumé should be directed **as soon as possible** (before March 5th, 2023) to:
